Dear Dr. Margaret,

Acknowledgement of receipt

Thank you very much for your email. It was encouraging to learn of your passion for conservation and well being for the people of Africa and Kenya.

I went through your website and was very pleased to learn about your organisation and the work that you are doing. I also noticed that your activities contribute a great deal to the attainment of the United Nations Millennium Development Goals especially those that deal with health issues and poverty eradication - which to me is a noble cause and should continue so as to improve the living standards of the rural women and children.

I wish you success in your endeavours and assure you of my continuous support now and in the future.

Yours sincerely

Hon. Prof. Wangari Maathai, EBS. , E.G.H
Goodwill Ambassador for the Congo Basin Forest Ecosystem
Presiding Officer of the Economic and Social Council (ECOSOCC) of the African Union
