Our Mission:

TropicalClinics is a community pharmacy and treatment center established to provide vital life-saving medical and therapeutic care in a culturally sensitive manner that respects and dignifies the residents of Kakamega region in rural Kenya. We ensure patient quality outcomes through the delivery of direct patient care, prevention, education and improve the health, well-being and overall quality of life of women, children and families served.

Our Services:

The TropicalClinics Center is a Kenyan qualified medical and therapeutic health center. The center at Kholera House in Kakamega town is a 17,000 square foot site that has been renovated to a state-of-the-art pharmacy, diagnostic and treatment center. It provides preventive and medical care for over 48,000 medically under served children, women and their families annually.

The treatment center was set up to help reduce maternal and newborn deaths; provide holistic care to the HIV/AIDS patient as well as treat childhood vaccine-related diseases and prevent malnutrition. The center provides services and

welcomes every person seeking our care. They are assisted regardless of income level or medical insurance coverage.

Our mission and responsibility as a community resource is to enhance the quality of life for every member of our rural community.
